EASYSCAN

The Smart Leak Locator

3-in-1
All-round
leak finder

The first leak locator that is both leak noise correlator and acoustic ground microphone and electronic listening stick in one single product.

EASYSCAN

The Smart Leak Locator

So easy – anyone can pinpoint leaks

Big performance for a small price – leak detection made easy.

- Easy and intuitive to use
- App controlled
- Attractive design
- Premium cloud option

A 3-in-1 leak finder

EASYSCAN is a multi-purpose leak locator that can be used as leak noise correlator, an acoustic ground microphone or an electronic listening stick. With just a few quick manipulations you transform your EASYSCAN from the correlation to the listening functions or back. You can operate all functions by the tip of your finger on your Android tablet or smartphone, assisted by an attractive EASYSCAN App which you can download from the Google Playstore. Operation is so easy and intuitive, even beginners get good results.

Compact, fast and convenient

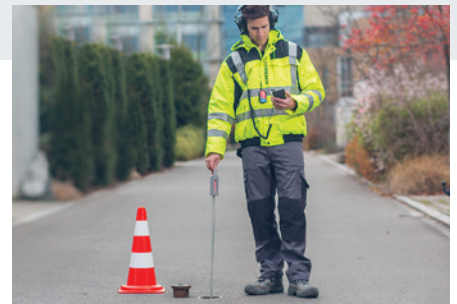

All you need for your leak detection operation is stowed in one ruggedized carry case. The ergonomic design of the kit, the fast and easy setup and the fact that all main components connect wirelessly make the EASYSCAN highly efficient, convenient and a pleasure to work with.

Your own cloud account

Upgrade to the Premium membership and upload and store all your data and measurements in the cloud. You will be able to retrieve your measurements, locate leaks on a Google Maps interface and listen to all sound recordings for as long as you remain a Premium member. This enables you to manage your assets more effectively and create reports which will allow you to keep on top of your network leakage and the condition of your pipes.

Buy it online

Learn more about the many functions and advantages of EASYSCAN or buy it directly in our web shop <http://www.myeasyscan.net>. The EASYSCAN kit is extremely affordable, and we offer a 30-day money back guarantee if you are not satisfied with the product.
